

EdgeBox RI Perimeter Metal Blocking Systems

EdgeBox is an innovative engineered metal replacement system for roof nailers that is compatible with most commercial roofing systems, decks, and insulation types. Using EdgeBox you can replace traditional wood blocking or nailers at the perimeter of a low-slope roof and eliminate any concerns about fastener corrosion in ACQ treated wood. EdgeBox will not rot, warp, crack, split, mold, or incur any insect damage.

MATERIAL	HEIGHT (IN)	WIDTH (IN)
20 Ga. Galvanized Steel Box	1.25 to 6	3.5 to 6
20 Ga. Galvanized Box w/ 20 Ga. Spine	6.25 to 12	6.25 to 12
20 Ga. Galvanized Box w/ 16 Ga. Spine	12.25 to 16	12.25 to 16

Easy Installation

- » Provided in 12'-0" lengths for quicker installation
- » Pre-punched holes and supplied fasteners for proper attachment
- » Includes all fasteners to ensure correct use and lower material costs

Traditional Wood Blocking

EdgeBox RI Engineered Nailers

EdgeBox RI At-A-Glance
