

# RADIUS TO STRAIGHT FASCIA MITER

## ANGLE MEASUREMENT INSTRUCTIONS

1. Cut a straightedge equal to 12".
2. Lay the straight edge on top of the radius portion of the miter area. Align the straightedge at the corner of the miter area and at the outside edge of the radius (as illustrated).
3. Measure the angle as shown. Record this measurement in the box provided.
4. Fill in the general information below and fax this sheet back.
