

Wind Resistant Gutters & Water Control

Unique design, superior roof drainage, and attractive appearance make Wind Resistant Gutters and downspouts stand out from the crowd. Wind Resistant Gutters are specifically engineered and tested to meet the requirements of the ANSI/SPRI GT-1 Standard for Gutter Systems Used with Low-Slope Roofs. The design incorporates a 1" wide extruded internal gutter hanger for strength and support. It also reduces the torque of the metal with expansion and contraction in temperature changes.

OTHER WATER CONTROL PRODUCTS

- Flow-Thru Drain Bar
- Scuppers and Conductor Heads (Multiple Versions Available)
 - Thru-Wall Scuppers
 - Thru-Wall Scuppers with Conductor Heads
 - Conductor Heads
